Shed Price Notes

- Effective May 2014
- All prices plus tax & paint
- Prices include local delivery and complete set-up on site
- Width & length are approximate; please ask about exact dimensions

Sheds over 120 Square Feet...

...typically require a foundation and building permit. Please see our "Studio" brochure for information about buildings in this size range.

**Buildings with "House" Doors

The Shed Shop strongly recommends all sheds with "house" doors be installed over a slab, foundation, or other firm footing.

Classic Features

...included in every Classic building

1. Four-component elevated floor system... guaranteed for the life of the shed

- A. Cement leveling blocks
- B. Treated skids/runners
- C. Floor joists 16" o.c.
- D. 3/4 ACX "exterior grade" plywood floor

2. Industry standard wall-framing

- wall framing; 2x4 16" o.c.
- Double top plates (except 4&6 ft. "Mini-Classic")
- Double corner studs

3. Choice of Siding

Vertical "SmartSide"

- Pre-primed cedar grain deep embossed surface
- Jungle-tested to resist fungal decay and termites
- Advanced resin adds durability and weather resistance
- Backed by SmartSide 5/50 limited warranty

Horizontal "TrueWood"

- Pre-primed "Old Mill" textured surface
- The look of real wood without knots & cracks
- Made with 40% recycled and recovered wood fiber
- Backed by 5/30 limited warranty

4. Double-Pane Vinyl Sliding Window

- "Low-E" glass keeps shed cooler
- Includes insect screen
- Mini Classic: Includes one 3x2
- Traditional & Tall: Includes one 3x3

5. Extra-Wide Shed Door

- 44 inches wide for easy access into shed
- Hung with heavy duty T-hinges
- Locking handle & key
- 2x4 bracing around perimeter and center prevents warping

6. Soffit & Fascia Roof Profile

- Rafters overhang the side wall and are boxed in with soffit & fascia
- Shed appearance is dramatically enhanced compared to an ordinary shed

7. Six-Component Roof System

- A. 2x6 dual ridge beams
- B. 2x4 rafters power nailed, not stapled
- C. 1/2" radiant-barrier roof sheathing keeps shed 30% cooler.

- D. "Synfelt" underlayment
- E. Drip edge protects roof edge from moisture
- F. 30 yr. dimensional shingles; self-sealing; class A fire rated.

8. Shed Protection Package

- 35 yr. silicone-based caulk around corners, door, and window trim protects from moisture
- Circular under-eave vents—4 ea.
- Metal threshold guard protects floor opening from rodents & heavy foot traffic
- Galvanized nails used on all exterior surfaces

- 4'x3' **\$125**
- 5'x3' **\$150**
- 6'x3' **\$175**

Exterior Paint

One-Tone Paint Add 10%
(\$200 minimum)

Two-Tone Paint Add 13%
(\$300 minimum)

Concrete

A concrete slab is not always required, but your new shed will look better and be more stable over its lifespan when resting on concrete. Costs vary with each situation, and will be quoted after an on-site consultation. Sheds larger than 120 sq. ft. almost always require a concrete foundation.

Service Options

Tear down & remove old shed *will quote*

Travel charge to extended service area **\$125 min.**

Move shed in yard *will quote*

Choosing Green?

Choose *The Shed Shop...*
...the "Greenest" sheds in the Bay Area.

"Arauco" 3/4 inch Plywood Floor

Our plywood flooring is produced using wood supplied by ISO 14001 certified plantations. This certification guarantees that all forestry operations are carried out in an environmentally responsible manner and are certified under the PEFC endorsed CERTFOR standard.

Collins "TruWood" Horizontal Siding

Collins was the first major timber company to grow certified lumber and wood products, and implement sustainable practices into its manufacturing plants. The FSC logo is a guarantee that the wood comes from forestlands that are managed in a manner that is environmentally responsible.

Louisiana Pacific "Smartside" Siding

LP Smartside products start with sustainably harvested premium hardwoods, which are then engineered with the non-toxic SmartGuard process. LP SmartSide factories are driven by energy provided by waste wood unfit for use in its products.

Radiant Barrier Roof Sheathing

All Shed Shop sheds feature LP Techshield roof decking, which blocks up to 97% of the radiant heat in the panel from entering your attic area, which keeps your shed cooler.

Wood waste is recycled

At the end of our manufacturing process, all wood waste is separated and sent for recycling.

Low-E Glass Double-Pane Windows

As of Oct. 1, 2009, all windows will have high-performance Low-E insulating glass which helps sheds stay cooler in the summer and warmer in the winter, prevents fading of interior furnishings, and reduces condensation. It also delivers greater light transmittance than tinted glass.

In warm weather, Low-E glass reflects the sun's energy and prevents it from entering the building; reduces amount of heat loss in winter.

"Green" Features of our Studio Sheds

Title 24 Low-Energy Requirements

Our Studio model meets California's stringent Title 24 efficiency standards for residential buildings.

Low VOC Interior Paint

Studio interiors are painted with Behr "Premium Plus Ultra" Low VOC paint.
